

# SUSTAINABLE DEVELOPMENT GOALS

## G3C BADGE PROGRAM

### Announcement

The University of Guam Center for Island Sustainability (CIS) would like to announce a new Guam Green Growth Commitment (G3C) Sustainable Development Goal Badge Program for the mayor's offices on Guam. The purpose of the program is to promote and reward participation from businesses, organizations, educational institutions, and community groups in developing and creating sustainable practices that align with the Guam Green Growth Action Framework and the United Nations Sustainable Development Goals.

Within the first two years, our focus will be to encourage transformative action to achieve the first badge of "NO POVERTY" and the second badge of "ZERO HUNGER". Although our office may be small, we know that with our island's support and graduate volunteers, this change is possible.
